PLANT CELLULOSE (made from Cotton) is naturally occurring plant matter, used to create the body and thickness of the lubricant.

ALOE BARBADENSIS* (Aloe Vera) & **HIBISCUS*** are plant derived extracts, and both help heal, moisturize and soothe the skin.

CYAMOPSIS (Guar Conditioners) is a non toxic and natural additive that enables the plant cellulose fiber to move and feel incredibly slippery.

FLAX* & **ALFALFA*** are added as restorative and healing emollients, restoring elasticity to the skin.

GREEN TEA* is added as an anti-inflammatory.

SUNFLOWER SEED* is used as a cleansing and calming tonic.

NATURAL NUT & SEED OILS are used to create an ultra luxurious glide for the most sensual massage ever. Each oil is specifically chosen for its glide, texture, and aroma, which adds to the therapeutic aromas chosen for each blend.
