

SnugglePuss

Specifics:

Unique concept designed to maximize stimulation without the use of hands

Works while you wear it!

Broad tickler to stimulate a large area

Bulbous head designed for internal G-spot stimulation

U-joint of the vibrator is just flexible enough to keep the unit from coming out of the body

Petite and quiet

General:

Made of silicone, no latex, no phthalates

Crafted in Japan, high quality motors and components

Roll back sleeve to replace batteries

If tickler sleeve is properly in place, unit can be cleaned under running water

Takes 3 LR44 batteries
